### **PABLO BARTHOLOMEW**

May 15 2015 - June 20 2015

These grainy black-and-white pictures look like they were pulled from the Indian artist's private photo album from the seventies: pictures of girlfriends, acid trips, and the lively bohemian circles that Bartholomew travelled in during the era. There are some dark moments, chronicling his struggle with addiction, but they're balanced by more buoyant images of friends—many of them writers and actors from India's film world—dancing or sprawled together on a bed, always caught off guard in candid pictures that convey intimacy, intensity, and an offhand charm. Through June 20.
